Outdoor Learning Experience (4, 5 and 6 years old)

| Learning Experience: Whirling Sunny Shadows | Shared by: : Tan Khee Huan, Moon |
|---|--|
| Environment: Pathway leading to the playground/ open space | Estimated time:: 30 minutes |
| Children's prior knowledge: Sunlight creates shadow | |
| What children will experience (NEL Learning Areas): | Suitable for: |
| Discovery of the World: Children will experiment with sunlight and create shadows with their bodies or objects along the concrete walking pathway. Aesthetics and Creative Expression: Children will express their creativity to create different shadows using their bodies and open-ended materials. | 4 years old 5 years old 6 years old |
| What you will need: | Benefit-Risk Assessment: |
| 1 box of coloured chalk 1 Bluetooth speaker 7 child friendly cameras (one for each pair of children) Open-ended materials such as: 15 plastic sheets 15 pieces of card boxes Open-ended materials such as different sized balloons, ice-cream sticks, strings, dead leaves, stems | Benefit: Enhance children's creativity by encouraging them to create different shadows using their bodies and open-ended materials at the outdoor walkway Encourage open-ended interaction Risk: |

| • | Potential littering from higher residential levels, or |
|---|--|
| | oncoming e-scooters. |

- Slippery surfaces due to wet weather
- Puddles of water

Management:

 Educate children to be mindful during outdoors and conduct a check before the activity

How to make it happen:

- 1. Group children in pairs before bringing them outdoors.
- 2. Reinforce the outdoor rules and regulations.
- 3. When children are outdoor, explain about shadows.
- 4. Ask children to find their own shadows and their partner's shadow.
- 5. Encourage children to use their bodies to create different types of shadows (e.g., by stretching out their hands to pretend to be a tree or pretend to fly like a bird).
- 6. Examine the shapes of their shadows and talk about them.
- 7. Give children coloured chalk to outline their partner's shadow on the floor.
- 8. Play some appropriate music to liven up the atmosphere.
- 9. Allow children to sit on plastic sheets. Encourage them to use the open-ended materials to fill up the outlines of their shadows.

As children work in pairs, the teacher encourages them to help one another to take photos of their creations.
